Shanghai 2019
Shanghai New International Expo Centre
Dear Exhibitors,

Welcome to the 18th Appliance & Electronics World Expo (AWE)!
This exhibitor manual will help you to prepare for AWE2019.

The Appliance & Electronics World Expo (AWE) is hosted annually by the China Household Electrical Appliances Association, an organization with 30 years of history starting from 1988.

In order to ensure a successful participation of AWE2019, please read this “Exhibitor Manual” carefully and pay attention to the schedule and deadlines. Thank you for your cooperation.

Don’t hesitate to contact us with any questions. You can find our contact information on Page 10.

For more information about the exhibition, please visit our website. www.awe.com.cn

We wish you every success in AWE2019!

China Household Electrical Appliances Association

### Three. Construction and Transportation

#### Contractor Registration
Any contractors without registration cannot get badges, and are not allowed to enter into the exhibition hall. Please fill in Appendix03 before Jan.20, 2019.

#### Design Drawing Review (raw space booth only)
**One-story:** Please submit booth design, perspective drawing, circuit diagram and fireproofing document (two copies) to official contractor in each venue.

**Custom-designed Booth:** Raw space booth designs that meet any of the following conditions must undergo additional review:
1. One-level booth over 4.5 meters (including 4.5 meters) high;
2. Double-level booth;
3. Top of the booth exceeds 50% of its booth area.

These booths are required to submit the drawing examination application (Appendix04) to *HAH Consulting & Exhibition Co., Ltd. Shanghai* before Jan.20, 2019.

Fire-control inspection will not be conduct in this procedure. But all booth design shall abide by fire control regulations, or the construction will be suspended or terminated.

#### Application for Electricity, Water, Furniture and Electrical Appliances
Exhibitors (raw space booth only) should apply for items above (Appendix05) from official contractors in each venue before Jan.20, 2019. Applications submitted after the deadline will be charged 50% extra.

#### Construction Suspension Point Application
Please submit the application form (appendix 05) to the official contractor of each venue before Jan. 20, 2019. The official contractor will submit the forms to SNIEC. SNIEC will start construction according to the sequence of application.

Construction is forbidden before SNIEC checking the application of suspension point. Construction Suspension Point is only for construction, not for advertisement. Advertisement hanging shall be charge separately. Suspension Point shall not be connected to
| Construction & move-in | Raw Space Booth Construction: Mar.11-13, 2019, 9:00-22:00 (3 days)  
(Raw space booth exhibitors permitted to unload cargo on Mar.5 morning) |

<td>Venue Entry Application</td>
<td>For raw space booths, the person in charge of the contractor should go to the “Accreditation Center” next to W1 venue with his/her ID card for REAL-NAME AUTHENTICATION before 17:00 on Mar.10th, 2019, and go to the “Accreditation Center” to get a MOVE-IN PASS and MOVE-OUT PASS between Mar.10th -13th , 2019.</td>
</tr>
<tr>
<td>”Transport Vehicle Pass” and “ Truck Pass” Application</td>
<td>Contractor or exhibitor should go to south entrance hall during Mar.11-13, 2019, 8:00-20:00 with Transport Vehicle License to apply for a ”Transport Vehicle Pass” and “ Truck Pass”. Each vehicle should pay CNY50 as a handling fee and CNY300 as a deposit. Deposit will be returned after leaving as scheduled and upon showing the ”Transport Vehicle Pass” and deposit receipt. Unloading must be done in 1.5 hour, or you will lose the deposit.</td>
</tr>
</tbody>
</table>
| Overtime Working Application | If any contractor or transportation company needs to work overtime, please go to South Entrance Hall (#1 entrance hall) before 15:00 of current day to apply for that. Applications after 15:00 will be charged 50% extra.  
Fee: Mar.11-13, 8:00-9:00am, CNY1200/hour; 22:00pm - post 8:00am next day, CNY2400/hour.  
Overtime working apart from the above period, price will double. |
| Dismantlement &move-out | Starting Mar.17th, 2019, 17:00, after exhibits (your booth and nearby booth) are moved out, booth dismantlement may begin. Dismantlement needs to be done before 22:00, Mar.17th, Otherwise, contractor and exhibitor will bear overtime fees. All garbage, construction material, adhesive tape and other residue needs to be removed. The deposit can only be refunded after examination by SNIEC. |
Regulations about Noise Management

Due to majority of exhibitors and visitors appealing, a better exhibition environment onsite provide exhibitors and visitors a more comfortable and elegant communication condition. Referring to the current national environmental noise control standards, we formulate this regulation, for exhibitors’ reference and execution.

During the exhibition, we require all exhibitors to control the volume of the audio equipment onsite and do not use high power audio equipment. The volume of the audio equipment should be below 80 dBs.

Specific provisions are as follows:

1. Contact Person of Noise Abatement
   All exhibitors should designate a person to be responsible for the noise control during the exhibition and required to report the contact information to the organizer in order to communicate and manage the onsite noise timely.

2. Noise management and onsite execution:
   If the exhibitor has the following situation, the organizer will give corresponding warning and punishment.

   - The organizers will detect the noise of the main booth speaker at any time. If the test results over 80 dBs, this corporate booth noise will be considered as excessive;

   - The organizer will inform the contact person to remind. If the exhibitor no longer has the circumstance as above after notification, no measurements will be taken onsite. If the exhibitor fails to reduce the volume to the acceptable decibel after the notification, the organizer will take the warning measurements.

   - If the first warning and the second warning are invalid, the organizer will cut off the booth power supply directly. Any equipment and other kinds of damage caused thereby shall be borne by this exhibitor

The organizer reserves the right of ultimate interpretation of this regulation.

en.awe.com.cn

F. Official Freight Forwarder:

DHL Global Forwarding (China) Co., Ltd. / Top-trans Expo Logistics Co., Ltd.

Shanghai Chuang Yuan International Logistics Co., Ltd

G. Official Construction Contractor:

Shanghai Rong Joy Exhibition Co., Ltd

SHANGHAI SYMA - EXPO LTD.

Oriental Expo Services (Beijing) Limited.
CHAPTER TWO. NOTICE FOR EXHIBITORS

One. Exhibitor Registration and Checking-in

A. Exhibitor Badges

Exhibitor badges will be printed according to exhibitors’ information. The badges will be the only certificate during move-in, exhibition, and dismantling. Persons without badges cannot enter exhibition center. Exhibitors must register in advance.

1. Please fill out Appendix01 and return by Dec.31, 2018. Persons who register after deadline will receive temporary badges, which have no name or position on.

2. Number Limitation for Badges Application

<table>

3. Invitation Letter for Visa Applications（Overseas Visitors/Exhibitors）:

For overseas visitors/exhibitors requiring Chinese visas, please fill in Appendix15 and send to

Thomas@cheaa.com, Tel. +8610-67093609. We will send an invitation letter in response.

B. Exhibitor Check-in and Expo Catalogue Pick-up

1. Check-in:

   Exhibitors of Raw Space Booth  9:00-18:00  Mar.11-13, 2019
   Exhibitors of Standard Booth  9:00-18:00  Mar.13, 2019

2. Check-in Location: South Entrance Hall（1# Entrance Hall）or North Entrance Hall (2# Entrance Hall),
   Shanghai New International Expo Centre

3. Check-in Procedures:

   Exhibitors register at South or North Entrance Hall with original “Admission Notice”. Proceed to claim
exhibitor badge, catalogue, move-in notice, move-out notice and other related documents.

4. Expo Catalogue Pick-up:

1 catalogue for Standard Booths, 3 catalogues for Raw Space Booths.

Two. Setting Up and Dismantling

A. Regulations for Standard Booths

1. Standard booth description

    Shell scheme A:
    · Carpet: 9 sq. m
    · 1 reception table, 2 folding chairs
    · 1 waste bin
    · 3 spot lights.
    · floor space (3mx3m)
    · Logo and company name in both Chinese and English
    · Walls: 3m(L)*3m(W)*2.5m(H)
    · 1 electric socket (5Amp/220V, 500W tops,
    if extra electrical power or lights are needed,
    please refer to Appendix05)

    Shell scheme B:
    · floor space (4mx3m)
    · Logo and company name in both Chinese and English
    · Walls: 3m(L)*4m(W)*2.5m(H)
    · Carpet: 12 sq. m
    · 1 reception table, 1 bar stool,
    · 1 shelf (100cm*30cm*4layers) or 1 high-low cabinet,
    · 1 round table+3 folding chairs
    · 1 waste bin
    · 5 spot lights
    · 1 electric socket (5Amp/220V, 500W tops,
if extra electrical power or lights are needed,
please refer to Appendix05)

2. Regulations for the Usage of Standard Exhibition Booths

Exhibitors must abide by the Regulations when constructing within standard exhibition booths.

1) Logo is not included in the basic configuration; please communicate with the official construction contractor if needed.

2) If the basic configuration of the stand package cannot meet all your needs, please fill out Appendix05 for electricity, telephone, internet or other furniture. For two and more package stands for one exhibitor, the inside wall will be removed.

3) The exhibitor for the stand package has no right to modify neither structure nor function. All the goods and decoration inside package stand is not allowed to exceed 2.5m. It is forbidden to post or hang any goods on the outside of the booth walls or from the doorframes. Please ask for help from the official construction contractor if necessary. Exhibiting in the passageways is not allowed; upon discovery, all goods will be confiscated.

4) No nails, pushpins or drilling can be applied to any parts of the standard exhibition room, due to damage caused.

5) If exhibitor modifies any structure of their stand, it will be considered a self-designed stand. In which case, the booth space type is raw space, which does not include electricity, wall and carpet etc. Exhibitor must reapply according to the procedures of self-designed stands.

6) No refund given for basic furniture which is not used.

B. Regulations for self-designed stand construction (raw space)

1. The structure of all custom made exhibition stands must be reasonably designed, so as to ensure the security and safety of the constructed structure. The construction materials used shall be non-flammable or fire retardant materials.

2. The designed structural strengths of all exhibition stands shall meet the strength required by the load. During the construction period efforts shall be made to ensure the overall strength, stiffness, stability and local stability of the exhibition stand structure.
3. The area of exhibition stand constructed by each construction institution must comply with the area specified in the submitted application. The area of an exhibition stand constructed by construction institutions shall not exceed the leased area, and its projected side line must not extend beyond the leasing border line.

4. For exhibition stand structures decorated with glass ornaments, the glass used must be safety glass, so as to ensure safety during construction and installation. Conspicuous warning signs must also be used to prevent glass breakage and possible resulting injuries or death.

5. For exhibition stands using steel structure standing posts, the standing post shall use welding-free material with a diameter of over 100mm; its bottom shall be welded with a secure base, with a flange welded onto its upper structure to increase its load bearing area of the standing post, so as to ensure the soundness of exhibition stand structure.

6. The ground contact width of the main load-bearing wall in all exhibition stand structures shall not be less than 120mm, so as to ensure the contact area between wall body and the ground. For walls with a large span of over 6m and steel column framework structures, connecting beams shall be added on the top, with supports fitted in between the columns at the bottom of columns, so as to ensure the overall stiffness and stability of the exhibition stand.

7. For construction of all exhibition stands in which the structural designs involve stage or platform structures with a height of over 4.5m (inclusive), as well as all indoor two-deck, multiple-deck or complexly structured exhibition stands, exhibition stand structural drawings must be provided, which shall be imprinted with seals of National Grade A Registered Structural Engineer for confirmation, accompanied by structural calculation sheet. All exhibitors and construction institutions shall give full consideration to the safety of exhibition stands from design to construction, so as to ensure the soundness of each connecting joint of the exhibition stand and the overall structure of the exhibition stand.

8. Construction of double-deck or multiple-deck exhibition stand must be equipped with fire extinguishers that have passed annual inspections.

9. All structural back walls of neighboring exhibition stands must be properly decorated.

10. It is strictly prohibited for indoor exhibition stands to adopt totally enclosed ceilings. Exhibition stand ceilings must not obstruct the fire-fighting facilities on the top of the exhibition hall. It must also be
ensured that the ceiling shall have an open space of over 50% of its total area, so as to ensure the fire prevention safety of the exhibition stand.

11. All construction institutions must not damage any facilities in the exhibition hall or alter its application nature and position. They are not allowed to drive nails, punch holes, paste adhesives, apply colorful paints or post advertisements within the exhibition hall, on exterior floors, or on wall surfaces.

12. When a construction institution is constructing an exhibition stand, it shall not set up obstructions in front of the fire-fighting facilities, electrical equipment, emergency exits and audience passages, etc. inside the exhibition hall.

13. No inflammable or explosive materials shall be used for the construction of exhibition stands, and no spray painting or paint coating shall be carried out inside the exhibition hall.

14. When personnel of a construction institution are carrying out mid-air operations, they shall use qualified and safe elevators and operation platforms and, construction personnel shall wear safety belts and harnesses. To ensure safety of all persons, a safety zone shall be set up in the surrounding area, which shall be monitored by dedicated personnel with conspicuous warning signs set up around the safety zone.

15. After the exhibition starts, the construction institution must appoint a site safety principal and dedicated personnel to stay on duty at the site, in order to handle any problems that arise.

16. If safety hazards during construction are found, the construction institution must make prompt rectification after receiving “Notice of Rectification”, and report back on the rectification results to the HAH Exhibition Site Construction Management Office.

17. Construction institutions shall complete the construction within the prescribed time and area, and take care of security work such as fire and burglary prevention. Construction institutions must appoint a site principal at the construction site, whose registration and filing shall be done at the time of completing construction formalities.

18. Processing tools such as electric saws and electric planes shall not be used for construction inside the exhibition hall, nor shall open fire operations such as electric welding or pneumatic welding be executed. In case of special requirements, the construction institutions must go to the Security Office of Shanghai New International Expo Center to apply for an exemption to this rule; construction can only start after the application has been approved.
19. The selection of construction materials for exhibition stands must comply with criteria issued by relevant national authoritative departments regarding material usage for temporary buildings, and be implemented in a rational way by taking into consideration the features of the exhibition; the selected materials must conform to national requirements on environment protection and fire-fighting.

20. Exhibition stand structure shall not use thin load-bearing structural parts with pipe wall thickness < 0.8mm, nor shall heavily rusted load-bearing structural parts be used.

C. Drawings Inspection

In view of the fact that in the present exhibition sector there are large differences in strength and qualification among companies providing services for construction of exhibition stands, and in order to ensure the standardized construction of exhibition stands for various conventions and exhibitions of Shanghai New International Expo Center, as well as the personal safety and property security of both exhibitors and visitors, after consultation with HAH Consulting & Exhibition Co., Ltd. Shanghai (a company appointed by Shanghai New International Expo Center Co., Ltd. for review of drawings and event management, hereinafter referred to as HAH), we have jointly formulated the following detailed management rules, so as to implement uniform review and supervision over the design, structure, construction and disassembly of participating exhibition stands.

D. Flow Chart of Booth Structural Safety Checking

1. For all two-storey, multiple-storey and outdoor stands, or any one storey stands higher than 4.5m (inclusive) or where the top structure of the stand is more than 50% of the booth space, the design drawings for stand construction must be submitted to HAH for review. The drawings subject to review include:

   a. Booth perspective drawing (1 front-side and 2 sides), in quadruplicate
   b. Ground floor plan, in quadruplicate
   c. 2nd floor plan, in quadruplicate
   d. Cutaway view, in quadruplicate
   e. Elevation, in quadruplicate
   f. Section (Side elevation), in quadruplicate
   g. Detailed booth material checklist, in quadruplicate
   h. Structural drawing, in quadruplicate
All drawings must be marked with the axis size of beams and posts, as well as the specifications and sizes of all structural materials.

2. All construction institutions entering the exhibition hall to start stand construction must provide HAH with copies of their business license certificate along with a license certificate for special job types imprinted with the company seal, to be used for filing purposes.

3. All construction employees entering the exhibition hall to start stand construction must pay a risk deposit for exhibition stand (this deposit shall be paid in cash or check); if no safety accidents occur due to the exhibition stand during the exhibition period, the deposit will be returned in view of compliance with the clearing and transport conditions for the exhibition stand at the site after the exhibition is over.

4. HAH Consulting & Exhibition Co., Ltd. Shanghai

Please contact: Kim Gu

Tel: 86-21-28906633 ext809, Fax: 86-21-28906000
Flow Chart of Booth Structural Safety Checking

Organizer informs exhibitor to issue drawings and files → SNEC or HAH

(The drawings shall be submitted to SNEC advanced 30 working days to before move-in time)

HAH starts first inspection to issued drawings and calculate sqm to pay
Price standard: 2nd floor sqm + ground floor sqm
(Inspection fee: RMB50/m² re-inspection fee: RMB25/m²)

Pass the first inspection

HAH issues Debit Note to the exhibitor

Fail to pass the first inspection

Inform exhibitor to modify

The drawing review work lasts for 7 working days, if meet special needs, it can be finalized in 3-4 working days. And if the drawing changes during the inspection, the reinspection fee will be charged according to the change.

Statistics result

Pass the inspection and settle up the checking fee

Fail to pass the first inspection or not pay the checking fee

HAH sends the structural drawings (stamped by Grade A National Registered Structural Engineer) and passing informs. With the informs, exhibitors get the permission to move-in.

Pass the inspection

Settle up the payment

HAH informs exhibitor to modify or pay the checking fee

HAH issues the list of the passed stands to Facility Management Dept. and Customer Service Dept. of SNEIC (accompany with the construction pass).

Note: All drawings submitted to the assigned drawing inspector for review shall be dimensioned in Arabic numerals. DO NOT only specify by grid.

6. For person in charge who can’t come himself/herself, he/she needs to provide a letter of authorization with signature and sealed by both companies. 

REAL-NAME AUTHENTICATION will expire after one year.

Register on line, and print out the application
Log-in to SNIEC website and register with the user name and password provided by SNIEC. Requires all team members’ information and photo. Then print out the application with serial number on it. The person in charge should sign and seal it.

Payment
Time: before applying for “Moving-in and Moving-out Pass” for contractors

Deposit for Garbage Disposal:
Exhibitors should wire or pay cash to official contractor to get the deposit certificate.

Construction Management Fee:
Exhibitors should wire or pay cash to official contractor to get the deposit certificate.

Moving-in and Moving-out Pass
Time: Mar.11-13, 9:00-17:00
Location: W1 venue, SNIEC.

Required Materials:
1. ID card of all team members, including the person in charge of construction.
2. Printed information of all construction team members, including person in charge (person in charge needs to sign and seal it)
3. Deposit Certificate for Garbage Disposal:
4. Certificate of Construction Management Fee
5. Production cost of the pass card.

Get the pass first before moving-in and moving out, otherwise construction is forbidden.

Three. Facility Protection

A. Booth Build-up and Dismantling

a. If it intends to setup partition walls, Exhibitors/Contractors shall put up plates or construction paper on the floor under the walls to protect the floor surface, and shall be responsible for the repair of any damage to the floor due to the construction or dismantling of the stand.

b. No nails, adhesives, drawing pins, or similar materials or hole-drilling shall be applied to any part of the premises without the prior approval of SNIEC. Exhibitors / Contractors shall be responsible and liable for any damage caused even if such approval is granted. No work should be carried out in the entry lobby without permission. Any structure or other item is not allowed to lean on and fix with the facility or structure of the Centre.

c. Only environment-friendly carpet and double-sided cloth adhesive tapes can be laid on the floor. Inferior carpets containing CaCO₃, double-sided blown-sponge or any other materials difficult to clean up are forbidden.

d. Exhibitors / Contractors will be responsible for the removal of all adhesive tapes and residual marks within the Leased Area. SNIEC is responsible for restoring any damage to the facilities due to the use of adhesive tapes that are not approved by SNIEC, but there storing cost shall be borne by Exhibitors/Contractors.

e. Stick-on decal or similar promotional items are forbidden to be stuck on any part of the building of SNIEC. Any cost incurred by SNIEC for there moval of these items and repair of any damage caused shall be borne by Exhibitors/Contractors.
f. Erasable chalk and approved appeare allowed to mark the locations of the booths on the hall floor. Other marking methods on the floor are not allowed. The removal cost of any non-approved floor marking shall be borne by Exhibitors/Contractors.

B. Floor load-bearing

The floor load-bearing capacity of indoor exhibition space is 3.3tons/m². If there is any vertically vibrating part in the exhibit operation, the above-mentioned floor load-bearing capacity shall be reduced at least by 50%. It is prohibited to setup a booth or pile heavy goods on the two main cable pipe lines in the exhibition hall. The floor load-bearing capacity of outdoor exhibition space is divided into three parts of 15 tons/m² for heavy load-bearing, 5tons/m² for normal load-bearing and 2tons/m² for light load-bearing. The above-mentioned floor load-bearing capacity shall be taken into consideration during the goods transportation, placement, demonstration and operation. Should there be any questions, inquiries are to be made with SNIEC before goods are moved into the hall.

C. Garbage Disposal

a. Exhibitors / Contractors are responsible for the removal of garbage and wastes from the Leased Area, service areas, unloading platforms and transportation passages. All booth structures shall be moved out of the Center (including the exhibition hall, unloading platforms, the square, the parking lot, surrounding roads and etc.).

b. SNIEC provides general garbage disposal service which will be paid by Exhibitors/Contractors according to the quotation of SNIEC. SNIEC reserves the right to surcharge Exhibitors/Contractors for the removal of excessive or over-sized garbage.

c. The waste water should be disposed at certain place appointed by SNIEC. Indoor and outdoor ditches, washing basins and water closets in the toilets in the Centre shall not be used for disposal of waste water, food or rubbish. The cleaning of polluted ditches, the cost of cleaning blockages in the drainage system and any other work caused thereby and the relevant legal responsibility shall be born by Exhibitors/Contractors.

d. Exhibitors/Contractors shall properly use the ditches for utility services in the hall while setting up and dismantling the booth and ensure that the waste water will be discharged into the designated areas fitted with proper plumbing instead of into the ditches.
D. Sand, Soil and Similar Material

If sand, soil, garden-use turf, moss, and other similar materials are required for the exhibition and presentation, an anti-leak protective layer shall be put on the floor. Exhibitors/Contractors shall take all necessary precautions to prevent any part of the Centre from being damaged by the above-mentioned material, and ensure no water leakage. Exhibitors/Contractors shall be fully responsible for any damage to SNIEC resulting from violation of the above-mentioned rules.

Four. Rules of Examining Design Drawings of Booth Construction

In order to enhance the management of booth construction and ensure the safety of on-site construction in the Centre, the following rules must be complied with by Exhibitors/Contractors:

a. All design drawings (including 3D prospective plan, measurement drawing, booth floor plan, elevation structure plan, dead load, list of materials and related data) shall be reviewed or verified by a drawing check company appointed by SNIEC.

b. Design drawings of booth construction may either be reviewed and stamped by a Chartered Structure Engineer of the People’s Republic of China appointed by stand fitters, or verified by a professional design company appointed by SNIEC. If exhibitors or stand fitters appoint a Chartered Structure Engineer to check the drawings, they shall submit the original drawings stamped by a Chartered Structure Engineer and copies of documents supporting the qualifications of such Chartered Structure Engineer to the professional design company appointed by SNIEC. The company appointed by SNIEC to check design drawings shall charge fees in accordance with verification standards.

c. Exhibitors/Contractors shall submit design drawings of booth construction (including 3D prospective plan, measurement drawing, booth floor plan, elevation structure plan, dead load, list of materials and related data) to the professional design company appointed by SNIEC 4 weeks prior to the move-in.

d. The unit price of drawing-check offered by the professional design company appointed by SNIEC is CNYSO/sqm and the charge is computed according to the drawings (the total area of all stories). A structure plan stamped by a Chartered Structure Engineer shall be produced after the drawing check. For booths already approved by a Chartered Structure Engineer, the unit price of design
drawing verification is CNY 25/sqm.

e. Exhibitors/Contractors shall setup booths in strict observance of the drawings reviewed and approved by the professional design company appointed by SNIEC and relevant national standards on structural design, loading, stability and strength to make sure that all booths are safe. The charge for drawing check of above mentioned booths is computed according to the booth area. In case of failure to submit a design drawing 4 weeks before move-in, a 100% surcharge for on-site drawing check will be charged.

f. SNIEC has the right of forbid the exhibitor whose design drawings of booth construction have not been approved by a Chartered Structure Engineer to carry out the construction work in the Centre.

g. In the build - up of a booth already submitted for review, the professional design company appointed by SNIEC shall verify whether the structure plan fully follows the drawings and Exhibitors/Contractors shall cooperate to dress the discrepancy if there is any.

Five. Hanging Points on the Ceiling

a. No hanging object is allowed in the Centre without permission. Each permitted hanging point may bear an object which weighs no more than 200KG. There are two rows of hanging points on the high beam with the distance between hanging points at 850MM. The professional staff of the Centre shall conduct the hanging work. The hanging point cannot be used to fix the structure connected with the floor.

b. If the booths its closet on the walls, no hanging point is allowed on parts near the walls and whether hanging points are allowed on parts away from the walls shall be decided on site. Hanging objects that affect the Center’s structure or facilities’ safety will not be allowed. If a single structure needs hanging, SNIEC takes responsibility for installing hanging points and blocks while Exhibitors/Contractors is responsible for the remainder of construction. Hanging advertisements and structural hanging points shall not be placed above public areas unless the organizer agrees to do so. Hanging points shall not be used for lifting facilities and for bearing any moveable objects.

c. Structural hanging points: it may bear a single structure which weighs no more than 1000KG. If the object weighs more than 1000KG, it shall be disassembled and its hanging maybe permitted when the weight requirement is met. The hanging height shall not be more than 9 meters. All hanging objects shall be composed of reliably-connected metal structures. Pure wood structures are not
allowed.

d. Hanging of banners: the top and bottom edges of the banner shall be fixated by one metal tube without any break or connection points. If the banner has width no more than 5 meters and weight no more than 25KG, it can be hanged by cotton ropes. If not, it shall use a hanging block. Banners wider than 5 meters shall be fixated by lamp holders.

Six. Fire-control and Safety Regulations

a. Materials used for the construction and installation of the exhibition booths and any other structures must consist entirely of non-combustibles with a burning diffusion rate not lower than Class B1 as required by both the national and local fire-control regulations of Shanghai.

b. Any behavior which could hamper the normal operation of the fire protection system and central supervising system, including the fire-alarm bell contact, the fire hydrant, fire extinguisher and fire escape is forbidden.

c. Free movement in and access to the fire control aisles, emergency fire escape routes and emergency exits must be ensured.

d. A passage of at least 1.2 meters (4ft) wide between any temporary structures and the fire hydrant, equipment room doors and alarm bell contacts must be maintained.

e. A repair passage of at least 1.0 meters wide between any temporary structures and the wall surface shall be kept.

f. Each row of the booths must not be longer than 32 meters, and all the passages must be at least 3 meters wide, and strictly complying with the standard booth layout provided by the Centre. The maximum height of construction is 6 meters for one-storey booths and 8.5 meters for two-storey booths or above in halls. If the booth construction height is more than 8.5 meters in HallWS, the design plan shall be submitted to SNIEC for examination and approval in advance.

g. No objects can be attached to or suspended from the fire sprinklers or lighting fixtures on the ceiling. The spot lights and other heat-generating equipment are not focused on nor be stationed near the fire sprinklers.

h. SNIEC will assist Exhibitors/Contractors in the management of the forwarders and stand-fitters. Exhibitors/Contractors shall submit their workers’ name lists as well as ID copies one(1)week prior to the move-in, so that SNIEC can produce standard working permits for them. Workers without
permits will not be permitted to work in the Centre. Exhibitors/Contractors shall obtain a construction permit from SNIEC for setting up a special exhibition stand and the construction can only start by posting such a permit on the construction site.

i. The stand-fitters should carry out their work according to the floor plan approved by fire-control authority. No change is allowed without permission.

j. SNIEC shall be entitled to remove any form of construction or structure which is not approved or violates the above-mentioned guide lines. Exhibitors / Contractors shall be responsible for risks and expenses that may occur.

k. All workers entering into the Centre for specific-type work must possess “Shanghai Specific-type Operator Certificate” (electricians, welders or fork lift drivers and others). Operators without certificates are not allowed to work. All relative operation rules and procedure must be strictly obeyed. Non-complying operation and supervision are strictly forbidden.

l. For other fire control issues, please refer to the Provisions of Shanghai Municipality on the Administration of Fire Control in Exhibition Industry.

**CHAPTER THREE. TRANSPORTATION SERVICE**

**One. Hall N1, N2, N3, N4 and N5--- DHL GLOBAL FORWARDING (CHINA) CO., LTD. / Top-trans Expo Logistics Co., Ltd**

We are pleased to announce that DHL Global Forwarding has been appointed by the show organizer as the Official Freight Forwarder of this event to be responsible for the freight service, on-site exhibits handling and customs clearance.

If you have any questions regarding freight forwarding matters, please feel free to contact,

2. Routings

**Direct arrival at Shanghai Airport / Shanghai Sea Port**

Shipments, whichever by air or by sea, sent under master airwaybill or master ocean bill of lading are always encouraged; exhibitors are, no doubt, to bear unexpectedly high forwarders’ handling fee in China if shipments are covered by house airwaybill or house oceanbill.

3. Forms

**Freight Instruction Order (Form 1)**

Freight Instruction Order (form 1) is a general form for your overall exhibits logistics. Maybe you will make several shipments through different ways, such as local cargo by truck, overseas cargo by sea, etc.

**List of Exhibits (Form 3)**

List of Exhibits (form 3) is the most important document for Customs clearance on a temporary import & export basis for exhibits from abroad. Exhibitors must submit this form to us without exception. A detailed description (in printed letter) of each exhibits, including major components, specification, values and intended use, must be accurately declared on this form. Catalogs, display materials, gift and other given-away items must also be specified with exact quantity and value on this document.

4. Declaration documents:

Documents needed for customs clearance and other procedures:

* List of Exhibits (form 3) --- 3 copies
* Commercial invoice --- 1 copy
* Packing list --- 1 copy
* Ocean bill of lading --- 1 original and 1 copy
* Master Airway bill & House Airway bill --- 1 copy
* Insurance policy --- 1 copy
* Quarantine and/or fumigation certificate:

For wood packing, the IPPC (International Plant Protection Convention) Mark should be put/stuck on both sides of the outside package; for non-wood packing, a letter of Declaration of Non-Wood Packing Material should be submitted (1 original and 1 copy).

5. Catalogs and publicity materials – censoring

Exhibitors should send samples of advertising materials including films, lantern slides, recording tapes, records, photos, maps, illustrations, directions and other publicity materials to us together with List of Exhibits (form 3). All these materials will be handed over to the China Customs for inspection in advance. Books and magazines cannot be imported without the permit issued by State Administration of Press, Publication,
Radio, Film, and TV of the Peoples’ Republic of China. The number of CDs cannot exceed 200 copies. Please note that Republic of China cannot be appeared in any advertising materials. Please note that, for given-away items, duties may be levied when the quantity is substantial and/or the value is high.

6. Closing of exhibition
We will start to return empty cases from storage area to stands on the evening of the closing day. Exhibitors, however, shall start repacking on the next day.
Upon exhibition closing, exhibitors are requested to declare to the Customs on List of Exhibits (form 3) the proper disposal instructions of their exhibits as follows:
a) Sold  b) To be returned  c) Given away  d) To be transferred  e) To be disposed
Please fill out and return the Instructions for Disposal of Exhibits to us before the day of exhibition closing.
After the closing of the exhibition, all exhibits should be moved to the Customs bonded warehouse due to the requirement of the Customs. Relevant charges will be levied according to our Tariff.

Exhibitors must pay special attention to the following customs regulations:
A. Declaration of contents in each package must be correct.
B. Items (e.g. personal effects, souvenirs bought in China etc.) other than those declared exhibits are absolutely not allowed to be returned together with exhibits.
C. Everything declared to the Customs before the exhibition opening, must not be disposed or taken away by exhibitors without being declared to the Customs after the closing of the exhibition. Otherwise, exhibitors should be responsible for any penalty by the Customs arising thereof.

7. Fumigation Requirements
Any shipment to be imported and/or transited from E.U. Countries/Area, Korea, Japan and the USA is requested to arrange the following Handling Procedure:

<table>
<thead>
<tr>
<th>Packing Material</th>
<th>European Union Countries</th>
<th>Korea, Japan , North America</th>
<th>Issuing Dept.</th>
</tr>
</thead>
</table>

Note: The original certificates must be attached to the original airway bill or ocean bills of lading and send to TOPTRANS for submitting to China Entry & Exit Inspection and Quarantine. The copy of documents must be sent by fax or e-mail to TOPTRANS.

All the wooden packing of the exhibits from overseas must be marked by IPPC (International Plant Protection Convention) officially, as below,
The mark should at minimum include:
IPPC Symbol (as reproduced above);
XX = ISO two letter country code (e.g. Germany = DE)
000 = the unique registration number assigned for the company that manufactured or treated the wood used for the wooden packaging;
YY = IPPC abbreviation disclosing the type of treatment (e.g. HT for “Heat treatment” or MB for “Methyl Bromide”).
DB = abbreviation of the approved measure to confirm the use of debarked round wood.

Note: the shipper should inform DHL in advance the sort of packing material so that we could apply for the permit of import to CIQ accordingly. For failure to make the necessary arrangement for the handling of wood, Exhibitor should be responsible for the penalties from China Government Authorities and the delay of exhibits delivery to stand on time. The same procedure is also applicable to THE DECLARATION FORM FOR NON-WOODEN PACKING GOODS.

8. Hand-carried Exhibits
Exhibitor with small items of exhibits can hand-carry them to the Show, the exhibitor should then declare to the Customs at the airport that their hand-carried items are for exhibition purpose. If the hand-carried items are detained by the Customs at the airport, exhibitors should hand over the detention receipt and List of exhibits (duly filled) to DHL to arrange the delivery of the goods from the airport. Exhibitors arriving late with hand-carry items should be prepared to encounter problems when they intend to hand-carry exhibits out of the exhibition halls and these exhibits should also be returned as a shipment after the show.

9. Exhibits of a Dangerous Nature
Exhibitors need to fill out and send to us a special form for dangerous goods. Such forms will be provided upon request and the completed forms should reach us before shipment is dispatched. There will be surcharge for handling such exhibits.

10. Heavy and Oversized Exhibits
Exhibitors with heavy or oversized exhibits must be on-site early and direct the operation of unpacking and positioning heavy exhibits. If a mobile crane or forklift is required for installation of equipment, exhibitors should send their requirements to us in advance. A detailed layout should also be provided to us for better on-site operations.

Cases for heavy exhibits should be so constructed that the sides are jointed by bolts rather than by nails or screws. This will prevent the case from being damaged during unpacking and will save considerable time, especially during exhibition closing. Please mark the front side of the case clearly to ensure correct positioning. As we will not provide any packing materials for exhibits, exhibitors should ensure that they have adequate and appropriate packing materials for repacking during exhibition closing.

11. Packing of Exhibits
Exhibitors shall be responsible for the consequences of improper packing
a) Protection against Damage and Rain
As the exhibits are repeatedly loaded and unloaded during transportation, shocking/bumping will sometimes be inevitable. Moreover, exhibits will be placed outdoors many times, including open-air storage at the exhibition center during show period. Therefore, exhibitors must take necessary precautions against damage and rain, since we cannot assume any responsibility for the damage, especially when the return exhibits are to be packed with used packing materials (the case as well as aluminum foil, plastic covers etc. very often would have been damaged already during unpacking).

b) The Packing Material
The case must be strong enough to avoid damage during transportation as well as unpacking, and in particular, be suitable for repacking after the exhibition. Packing in cartons is not considered suitable for repeat handling, especially for valuable or delicate equipment.

12. Customs Clearance
We will go through Customs formalities for exhibitors. On some occasions, the presence of exhibitors will be required. As the Customs require the official forwarder to be responsible for the control of all exhibits, exhibitors should not allow their exhibits to be taken away from the show ground without prior arrangement with the Customs through us.

13. Unpacking and Repacking of Exhibits
We will assist exhibitor in physical unpacking and installing of exhibits. Exhibitors, however, must supervise and be responsible for these operations. For this purpose, a responsible representative of the company must be available on-site during the move-in period and provide us the written instruction for installation of machines.

Similarly, during exhibition closing, exhibitors must also supervise the dismantling and repacking of exhibits, especially for delicate or heavy equipment, as these operations will be carried out at exhibitors’ risk. When exhibits are repacked by used packing materials, the packing is regarded as no longer suitable to protect the equipment against damage/moisture compared with the original. Exhibitors shall therefore bear the responsibility for the consequences arising therefrom.

14. Insurance
Please note that all the charges by our company do not include the insurance premium. To safeguard the rights and interests of the exhibitors, we suggest the exhibitors should arrange a proper round-trip (including exhibition period) all risk insurance for their exhibits. The insurance should cover the responsible accident by our company and our agent. To be used as declaration and inspection when there may occur shortage and damage on site, please prepare the original and copy insurance contract.

Please note that we do not provide the insurance for the exhibits directly. All the risk by our service should be taken by the exhibitors. Each exhibitor should confirm the time and terms of the transportation, delivery and return. Please also note the valid time of the insurance.
15. Marking of the Case
The following marking must be painted on two sides of each case:

<table>
<thead>
<tr>
<th>Exhibition:</th>
<th>AWE 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exhibitor Name:</td>
<td></td>
</tr>
<tr>
<td>Hall / Stand No.</td>
<td></td>
</tr>
<tr>
<td>Gross Wt. / KGS</td>
<td></td>
</tr>
<tr>
<td>Dimensions (L x W x H) / CBM</td>
<td></td>
</tr>
<tr>
<td>Case No</td>
<td></td>
</tr>
</tbody>
</table>

16. Payment

A. Deadlines for payment
a. Balance dues for inbound movement reaching our bank account ------prior to the exhibition opening

b. Balance dues for outbound movement reaching our bank account ----before exhibits departure

Please abide by the above strictly and settle all account before the deadlines, otherwise, we will not arrange the inbound movement and returning shipment accordingly and not be responsible for any consequences arising therefrom.

17. Conditions of Business
All services provided by TOPTRANS are carried out in accordance with the Conditions of Business of our company.
Shanghai Chuang Yuan SHIPPING INSTRUCTION

INTRODUCTION

The organizer has appointed Chuang Yuan International Logistics as the official freight forwarding, site handling, and customs clearance agent for the above-mentioned exhibition. Controlling the flow of all exhibits of the said exhibition is Chuang Yuan International Logistics’ responsibility under the Chinese Authorities’ requirements.

When making forwarding arrangement of exhibits, please be reminded that only the official freight forwarder is entitled to the exhibits handling after they arrive in China.

Full information and instructions are enclosed herein to help you ensure the correct dispatch of goods and associated documents to this show. Kindly read these carefully and comply with them accordingly. Non-compliance will cause unnecessary delay in customs clearance and additional expenses.

Please address all your correspondence concerning the Exhibition Freight Forwarding matters to:-

Shanghai Chuang Yuan International Logistics Co., Ltd
Block 26D, Strength Plaza,No.4,Lane 600,TianShan Road Shanghai, China, Tel: 0086 21 6237 1938
Contact: Mr. Young Zhou Ext. 808 young.zhou@cy-il.com & Mr. Hongxin Luo Ext. 809 hongxin.luo@cy-il.com

or please contact our branch/agent in your country. For the sake of efficiency and economy, you are encouraged to ship your exhibits through our overseas branches or nominated agents who are specialists in exhibition freight forwarding. Please find the contact details from the attached agent list or send us individual request for those countries not listed.

A) TIME SCHEDULE OF FREIGHT FORWARDING

REMARKS:
1. It is mandatory to have all exhibits containing wooden materials (internal or external packing or for stuffing or fixing purpose) and materials as minor as wooden chip, beams, etc. fumigated before importing to China by the Chinese authorities. All treated wooden materials must bear the officially recognised mark
“International Plant Protection Convention (IPPC)” up to local authorities' required standard. Any violation of these rules and regulations will result in late release or being penalized or being returned to the shipments' originated ports or being confiscated at exhibitors' expenses and risks. This regulation is applicable for all countries / cities (including Hong Kong SAR, Macau SAR and Taiwan).

2. Holiday adjustments during Labour Day, National Day, and Dragon Boat Festival definitely affect the regular arrangement of customs clearance and collection of cargoes; adhering to our documents and cargoes receiving period is IMPORTANT to avoid any delays.

3. Overseas exhibitors can obtain essential information from our nominated agents. (i.e. deadlines & freight charges, etc.)

4. Cargoes sent from Hong Kong SAR, Macau SAR, and Taiwan are treated as overseas shipments.

B) CONSIGNMENT INSTRUCTION

a) Direct arrival Shanghai Airport

Consignee ON MASTER AIR WAY BILL (MAWB):
Shanghai Dazhong Transportation Int’l Logistics Co., Ltd
No. 558 Hai Tian Yi Rd
Pudong Airport Shanghai, China
Tel: +86 (21) 68359308
Fax: +86 (21) 68359520
Attn: Cicy Shi

Notify Party:
Shanghai Chuang Yuan International Logistics Co., Ltd
Block 26D, Strength Plaza,No.4,Lane 600,TianShan Road Shanghai, P.R.China
Tel: +86 (21) 6237 1938
Fax: +86(21) 6237 8179
E-mail: young.zhou@cy-il.com

b) Direct arrival Shanghai Seaport

Consignee & Notify Party on SEA WAY BILL or BILL OF LADING:
Shanghai Chuang Yuan International Logistics Co., Ltd
Block 26D, Strength Plaza,No.4,Lane 600,TianShan Road Shanghai, P.R.China
Tel: +86 (21) 6237 1938
Fax: +86(21) 6237 8179
E-mail: young.zhou@cy-il.com

SHIPMENTS, WHICHEVER ARE AIRFREIGHT OR SEAFREIGHT, SENT UNDER MASTER AIRWAYBILL OR MASTER OCEAN BILL OF LADING ARE ALWAYS ENCOURAGED; EXHIBITORS ARE, NO DOUBT, TO BEAR UNEXPECTEDLY HIGH FORWARDERS’ HANDLING FEE IN CHINA IF SHIPMENTS ARE COVERED BY HOUSE AIRWAYBILL OR HOUSE OCEANBILL.
Before shipment arrival Shanghai, shipment pre-alert with the following details must be sent to the notify party as the above mentioned:
- Dimensions and weight of each package;
- Estimate Date of Departure and Arrival;
- Flight No. / Name of Vessel & Voyage No. 
- Master Air waybill No., Ocean B/Lading.
- List of Exhibits.

For air shipment, the List of Exhibits MUST also be attached to AIRWAYBILL(s), as the shipment can only be cleared through China customs against this document.

For sea shipment, ORIGINAL Bill of Lading together with the "List of Exhibits" MUST be dispatched to the consignee at least 1 week before the goods arrival Shanghai.

Full container loaded sea shipment under through Bill of Lading to PRC, it is essential 

i) to specify in B/L service code at destination is CY/CY, and

ii) that exhibitors must rent the container from the shipping lines and send the relevant documents to the consignee showing that the containers is allowed to on forward to exhibition site.

For break-bulk cargo, they must be unloaded at Shanghai AS PER TIME SCHEDULE. When deciding to use this mode of transportation, the exhibitors must be fully aware of the uncertainly of the duration from arrival of vessel to Shanghai till unloading of cargo at the Shanghai terminal.

C) EXHIBITION DOCUMENTS

Customs Clearance will be proceeded according to the "List of Exhibits", both for exhibition opening and closing. All exhibitors are requested to complete it in both English and Chinese in full and return to us according to our TIME SCHEDULE. Description of ALL exhibits, including promotional materials –catalogues, souvenirs, samples, visual aids - must be declared precisely, such as: including the DIMENSION of individual package, MODEL NOS., SERIES NOS., BRAND NAMES, MAJOR COMPONENTS, QUANTITIES, and VALUE, etc. On request, we can also have the “List of Exhibits” translated into Chinese at exhibitor’s expenses. However, these documents MUST reach us on time.

Hand-carried exhibits brought to the exhibition must also be declared, but separately.

D) PROMOTIONAL MATERIALS

When Taiwan, Hong Kong, or Macau is mentioned in these promotional materials, the exhibitors should avoid using any expression of interpreting those places in the position equivalent to a country. ALL VISUAL PROMOTIONAL ITEMS (TAPES, VIDEO TAPES, FILMS, CD, VCD, DVD, ETC) ARE NOT RECOMMENDED TO SHIP DUE TO COMPLICATED CLEARANCE PROCEDURE. All requirements of sending these materials to this exhibition could be found in Appendix III – Acknowledgment of Customs Clearance Formalities.

E) QUARANTINE INSPECTION AND FUMIGATION

Please refer to the Appendix IV – Acknowledgment of Quarantine Inspection and Fumigation Formalities, and the notice of Quarantine Inspection and Fumigation in China – for details.

F) DANGEROUS GOODS
Exhibitors need to complete and send to Chuang Yuan International Logistics a special form for dangerous goods. The completed form should reach Chuang Yuan International Logistics before shipment is dispatched. Such form will be provided upon request. Surcharge for handling of dangerous cargo will incur. Please refer to our tariff for the rate. For your information, no cargo with dangerous nature will be accepted by the Rail; airlines and ocean carriers only accept those shipments to a limited extent. Exhibitors shall be liable for the consequences of re-exporting such items out of China without consulting Chuang Yuan International Logistics in advance.

**G) PACKING OF EXHIBITS**

The exhibitor shall be responsible for the consequences of improper packing,

a) Protection against Damage and Rain
Please note that the exhibits are to be repeatedly loaded and unloaded by different parties during the long distance transportation, and shocking/bumping will sometimes be inevitable. Moreover, the exhibits will be placed outdoors many times, including open-air storage at the exhibition centre before and after the exhibition; sometimes even without a tarpaulin. Therefore, we strongly recommend the Exhibitor to take necessary precautions against damage and rain, especially when the return exhibits are to be packed with original packing materials, as the cases as well as aluminium foil, plastic covers etc. may be damaged already during unpacking.

b) The Case
The case must be strong enough to avoid damage during transportation as well as unpacking and in particular be suitable for repacking and for sale or return movement after the exhibition. It is advisable that the gross weight of individual package is between a few hundred kilogram and 2 tons - smaller case will be handled manually and therefore has more chances to get damaged; while too heavy a case will cause heavy-lift surcharge.

**H) LAYOUT OF STAND**

When the gross weight of a case of exhibit exceeds 1,000 kilos or when the total volume of exhibits is substantial, e.g. over 10 cubic metres, exhibitors should submit a drawn-to-scale layout on FORM (APPENDIX V) or prepare one separately if necessary, to facilitate the transport and positioning of exhibits. Case number and front side of the case must be clearly shown on the layout as well as on the case.

**I) HEAVY / OVER-SIZED EXHIBITS**

Exhibitor with heavy exhibits must arrive on-site early and direct the actual positioning of heavy exhibits. The surcharges for heavy / over-sized exhibits will be levied as per our tariff. If a mobile crane or forklift is required for installation of equipment, including removing wooden bases, the exhibitor should send their detailed requirements to Chuang Yuan International Logistics. For quotation of hiring such equipment, please refer to our tariff. A detailed layout should also be provided to Chuang Yuan International Logistics for better on-site operation.
If neither layout nor instruction has been given to Chuang Yuan International Logistics in advance, exhibits will be delivered and placed arbitrarily on the stand. Extra charges for re-positioning of the exhibits incurred are at the exhibitor’s expenses.

It is imperative to mount the heavy exhibit firmly on a sturdy base with skid in order to protect the machine while being hoisted and positioned. Exhibits should be displayed on the base. Otherwise, surcharge will be incurred for removing the base from heavy exhibits. Case for heavy exhibits should be constructed so that the sides are fixed by bolts rather than by nails or screws. This will prevent the case from being damaged during unpacking and will save considerable time, especially during the exhibition closing. Please mark the front side of the case clearly to ensure correct positioning.

**J) CASE MARKING**

All packages must be clearly marked on at least 3 sides:

- NAME OF EXHIBITION:
- NAME OF EXHIBITOR:
- HALL NO. / STAND NO.:
- CASE NO.
- GROSS WEIGHT: (KILO)
- NET WEIGHT: (KILO)
- DIMENSIONS: (L x W x H CMS)

Please also mark "FRONT" or "BACK" & "CENTRE OF GRAVITY" on packages as well.

**K) CUSTOMS CLEARANCE, UNPACKING & REPACKING OF EXHIBITS**

Clearance and inspection, for both inbound and outbound movement, in Shanghai will be undertaken on behalf of the exhibitors by Chuang Yuan International Logistics. However, exhibitors’ representative(s) must be present to supervise the unpacking, assembling, positioning, dismantling, and repacking. Chuang Yuan International Logistics will not be responsible for any delay in these procedures due to the representatives’ late arrival or the absence of exhibitors’ advance explicit instruction. To remain in close contact, representative’s contact details must be provided to us in advance.

No exhibits are allowed to unpack on or take away from the show ground without Authorities’ approval through Chuang Yuan International Logistics as they are imported to China on the basis of temporary importation permission.

**L) HAND-CARRIED EXHIBITS (FOR GENERAL EXHIBITS ONLY)**

No hand-carried exhibits are encouraged at all times. Should it be inevitable, exhibitor must declare their hand-carried goods are for exhibition purpose to the Customs at Shanghai Airport in case they are detained; then, the exhibitor will be issued a detention slip which must be immediately given to Chuang Yuan International Logistics on-site staff. With this detention slip and the completed List of Exhibits, Chuang Yuan International Logistics will apply for the Customs Cover to collect those detained hand-carried exhibits at exhibitor’s expenses according to our official tariff. Please allow 1-2 working days to finish this Customs clearance and collection procedures.

All other hand-carried items from local suppliers should also be declared in the "LIST OF EXHIBITS".
M) INSURANCE

Please be reminded Chuang Yuan International Logistics ' tariff is worked on the basis of volume or weight and has no correlation with the value of exhibits, therefore no insurance has been covered in Chuang Yuan International Logistics ' service rates and all work is undertaken at owner’s risk.

It is the responsibility of each exhibitor to cover round trip all risks Marine (Transport) Insurance including the exhibition period and return of the exhibits to domicile, inclusive of the period the exhibits are handled by us, preferably through a company who has an agent in the city of the show site. The exhibitor should also bring a copy of the insurance policy to China. It will be necessary in case the exhibitor intends to claim for damage or loss in China.

N) CUSTOMS PROCEDURE AT CLOSE OF EXHIBITION

According to the Customs Regulation of China, it is imperative that all exhibitors should declare the disposal nature of their exhibits - sold, consumed, returned, given away, or ABANDONED – before the close of the exhibition.

For this purpose, each exhibitor will be returned a copy of its submitted "LIST OF EXHIBITS" and requested to fill in and return the disposal instruction to Chuang Yuan International Logistics on site at least 1 day before the close of the exhibition.

Exhibitors must not leave the show ground before handing over returned exhibits as well as exhibition documents to Chuang Yuan International Logistics. Once these documents have been processed with relevant Chinese parties, any changes will generally not be accepted.

Should the official freight forwarder not receive the signed RETURNED INSTRUCTION on or before the closing day, the exhibits will be kept in Customs Bonded Warehouse until further instructions. Any costs thus incur will be on the exhibitor’s account.

O) RETURN OF EXHIBITS

All exhibits planned to be returned or sold will be arranged only when all customs clearance procedures are completed. Please bear in mind under normal circumstances, the completion of customs clearance formalities after the exhibition usually takes 14 working days before the return shipment schedule is effective. Please plan the further use of your exhibits and displays at your desired destination in 2 – 9 weeks, varying with shipping mode and destination, on top of these 14 days. Please advise Chuang Yuan International Logistics in advance if there are any exhibits and displays urgently needed for further use after the exhibition, then Chuang Yuan International Logistics will try to work with at extra surcharge.

P) PAYMENT

a) For Inbound Movement and Closing of Exhibition

Exhibits will be transshipped to exhibition booth only upon full payment is settled before our deadline.

b) For Return Shipment

Return shipment will be effective and / or Bills of Lading will be released upon receipt of payment.

c) The Bank Account of Shanghai Chuang Yuan International Logistics Co., Ltd. is:-
Beneficiary Name: Shanghai Chuang Yuan International Logistics Co., Ltd
Bank: Industrial Bank Co., Ltd.
Bank Code: 309290000480
Swift Code: FJIBCNBA600
USD Account No.: 216491400100002879

Q) CONDITIONS OF BUSINESS

a) All information is subject to change by organizer information.
b) All transactions are subject to the standard trading conditions of Shanghai Chuang Yuan International Logistics Co., Ltd (copies available on request from the company) and which in certain cases, exclude or limit the company’s liability.

I) REMARKS

1. Above rates exclude freights, lashing, purchasing of tarpaulin, and any materials required for lashing, or special container loading, tax/duties, or any items not covered in this tariff. Exhibitors should reimburse Chuang Yuan International Logistics for the cost if they incur.
2. Volume and weight conversion in airfreight rate is 6 cbm = 1,000 kilo.
3. Return exhibits can only be shipped out after the completion of customs clearance, which normally takes 14 working days, counting from the first working day after the move-out operation is done, to finish. Should exhibitor ask for priority or express service to accommodate its needs, 30% additional charge on top of the official tariff will be requested to cover the extra effort spent; and the final decision is subject to the Customs’ approval.
4. No unpacked cargoes without container are accepted.
5. All inbound shipments (sea freight, air freight, or land / rail freight) must be consigned as per our consignment instruction and on “FREIGHT PREPAID” basis; otherwise we shall levy 10% commission on the freight, which we pay on your behalf to the local carriers. The willingness of paying 10% commission, by exhibitors, is not the only criterion factored in Chuang Yuan International Logistics’ discretion of accepting this request, all subject to Chuang Yuan International Logistics’ final decision.
6. The surcharge for handling of dangerous cargo will be given upon request and this charge will be charged at exhibitors’ account. The definition of dangerous cargoes is subject to the declaration on the freight bills issued by carriers in accordance to the International Maritime Dangerous Goods (IMDG Code) for surface shipments, and Dangerous Goods Regulations (DGR) of International Air Transport Association (IATA) for airfreight shipments.
7. Exhibitors must bear all necessary penalties imposed by the Customs if the Clearance is not finished within the time allowed. Consequently, it is very imperative for exhibitors to send Chuang Yuan International Logistics all related shipping documents according to the Time Schedule and Consignment Instruction.
8. Costs will incur for the disposal handling of stand structures, stand elements, floor coverings, machinery & parts of machinery (Excluding removal of waste materials and products, and toxic materials). Please consult Chuang Yuan International Logistics staff for the rate.
9. There will be overtime surcharge for working on non-official working hours, i.e. beyond normal working / opening hours of official move-in, move-out, as well as show period. Rates
are subject to separate quotation.

10. Chuang Yuan International Logistics does not take any responsibility for:
   a) if any exhibits is not allowed by the organizer or Chinese Customs to be sold or displayed in fair site.
   b) any tax / duty for sold exhibits.

11. This tariff is compiled on volume or weight basis and has no correlation with the value of exhibits, thus no insurance coverage is included. Insurance coverage is subject to separate quotation.

12. Any service required from exhibitors not covered by this tariff will be quoted separately upon request.

13. All transactions are subject to the standard trading conditions of Shanghai Chuang Yuan International Logistics Ltd (copies available on request from the company) and which, in certain cases, exclude or limit the company's liability.

**CHAPTER FOUR. HOTEL AND TRAFFIC**

**One. Hotel Booking (need to update)**

Two. Traffic Guidance

A. By Flight:

SNIEC is located halfway between Pudong International Airport and Hongqiao Airport, 33 km away from Pudong International Airport to the east, and 32 km away from Hongqiao Airport to the west.

Pudong International Airport --- SNIEC

By taxi: about 35 minutes; around RMB 95

By maglev line: only 8 minutes; RMB50 for single ticket; (RMB 40 with air ticket); RMB80 for round-trip ticket

By airport bus line: take lines No. 3 and No. 6; about 40 minutes, RMB16

By Metro: Take Line 2 to get off at Longyang Road Station where you can walk or continually interchange Line 7 to SNIEC directly; about 40 minutes; RMB 6

Hongqiao Airport --- SNIEC

By taxi: about 35 minutes; around RMB 95

By Metro: Take Line 2 to get off at Longyang Road Station where you can walk or interchange Line 7 to SNIEC directly; about 40 minutes; RMB 6

B. By Train:

Take a train to one of the following three stations:

Shanghai Railway Station --- SNIEC

By taxi: Distance to SNIEC is 16km; around RMB 45.

By Metro: Take Line 1 to People’s Square, then interchange Line 2 to get off at Longyang Road Station where you can walk or interchange Line 7 to SNIEC directly; about 35 minutes; around RMB 4
Shanghai South Railway Station --- SNIEC

**By taxi:** Distance to SNIEC is 20km, about 25 minutes, around RMB 55.

**By Metro:** Take Line 1 to People’s Square, then interchange Line 2 to get off at Longyang Road Station where you can walk or interchange Line 7 to SNIEC directly; about 45 minutes, around RMB 5

Shanghai Hongqiao Railway Station --- SNIEC

**By taxi:** Distance to SNIEC is 35km, about 35 minutes, around RMB 70.

**By Metro:** Take Line 2 to get off at Longyang Road Station where you can walk or interchange Line 7 to SNIEC directly about 50 minutes; around RMB 6.

**C. By Car:**

SNIEC is located at the intersection of Long Yang and Luo Shang roads, which lead from the city center over the Nan Pu Bridge and Yang Pu Bridge through Pudong, and is easy to access by car.

**Parking lots:** There are 4603 parking lots dedicated to visitors at the centre.

**Car park charges:** RMB 5 = one hour; maximum daily charge = RMB 40; rates apply to cars and all other light vehicles.

**D. By Bus:**

A number of public bus lines run through SNIEC, stations nearby SNIEC: 989, 975, 976, Da Qiao No.5, Da Qiao No.6, Huamu No.1, Fang Chuang Line, Dong Chuang Line, Airport Line No.3, Airport Line No.6.

**E. By Taxi:**

**Central booking offices:**

- Da Zhong taxi: 96822
- Ba Shi taxi : 96840
- Jing Jiang taxi: 96961
- Qiang Sheng taxi : 62580000
F. **By Metro:**

Take Line 1 to Chan Shu Road Station; take Line 2 to Jing An Temple Station; take Line 3 to Zhen Ping Road Station; take Line 4 to Zhen Ping Road Station or Dong An Road Station, then interchange Line 7 to SNIEC directly.

Take Line 3 or Line 4 to Zhongshan Park Station; take Line 1 or Line 8 to People Square Station; take Line 4 or Line 6 to Century Avenue Station, then interchange Line 2 to get off at Longyang Road Station where you can walk or interchange Line 7 to SNIEC directly.
CHAPTER FIVE. EXHIBITION PUBLICITY AND ADVERTISEMENT SERVICE

One. Published prints

(I) Introduction of Expo Catalogue

Expo Catalogues are authoritative data of the exhibition, professional procurement guidance of domestic and overseas buyers and also the unique synthetic document assembly retained after the closing of the exhibition. Except for distributing to professional visitors on site, the organizer will also presented them to the industry association, the commercial section of the consulate and the chamber of commerce of each country, transnational business groups and significant distributors, etc.

(II) Catalogue

AWE will offer all the exhibitors to the service of listing in the Exhibition Catalogue. Please fill the Registration Form of Catalogue (Attachment 02), and email it to us (at thomas@cheaa.com) before December 31, 2018, or log in AWE official website for online filling after obtaining User Name and Password. Hotline: 010-67093609.

(III) Advertisement on Expo Catalogue

Expo Catalogue provide advertisement service on color pages with 210mm×135mm vertical color fine print. See details of alternative types and prices of advertisement in the Application Form of Published Print Advertisement (Attachment 10). The exhibitors who want the advertisement service on Expo Catalogue need to submit the form to us (at thomas@cheaa.com) before December 31, 2018. Hotline: +8610-67093609.

(IV) Visitor guide

The visitor guide is an important reference for visitors and provides exclusive advertisement. The exhibitors who want to buy this advertisement service need to fill the Application Form of Published Print Advertisement (Attachment 11) and submit the form to us (at thomas@cheaa.com) before December 31, 2018. Hotline: +8610-67093609.

(V) Advertisement on exhibition journal

The exhibition journal is an important publicity carrier during the exhibition period and provides all personnel on site with exhibition information, enterprise news and new products description, with massive audiences. The exhibition journal has both the paper edition and the electronic edition and is a good platform for domestic and overseas exhibitors to publicize themselves to visitors. The exhibitors who want to buy this advertisement service need to fill the Application Form of Published Print Advertisement (Attachment 11) and submit the form to Electric Appliance magazine by fax or email (at 010-65224919 or chiapp@sina.com) before

Two. Exhibition sponsorship

Sponsorship is also a good form of publicity. The organizer will give enterprises which participate in the exhibition sponsorship a series of and all-round value and support including naming right, on-site advertisement, tablet stands and speeches of high-level persons to ensure enterprises and their products widely publicized and improve their brand influence.

(I) High-level welcome dinner

In the day of the exhibition opening, a high-level welcome dinner will be organized and attended by heads of government, principals of industry associations and appliance enterprises, specialists and scholars, VIP clients and other important persons. It is conducive to the development and reinforcement of client relations and deepening cooperation. Sponsors of the dinner will be provided excess publicity value by the organizer.

(II) Drink serving and network support of news center and VIP client rest area

News center and VIP client rest area are respectively used to serve media partners and VIP clients. Application for sponsoring the project will help enterprises winning the active publicity of the media and the favor of VIP clients.

(III) Sponsorship of message armchairs in VIP client rest area

Provide message armchairs to VIP clients so that high-end clients gain the most intuitive consumption experience. It will bring good reputation to sponsors.

Three. Network service

The organizer will publish brief information about exhibitors on the official website of AWE 2019 for viewers. During the exhibition, the News Center will provide network service to meet the network requirements of the staff of exhibitors.

Four. Promotion of innovative home appliances

To promote the innovation of China’s home appliance industry, this exhibition encourages exhibitors to carry out multiform new product promotion activities.

(I) New products release conference and similar activities

The organizer will provide exhibitors with multiform new products release conference or other similar
activities during the exhibition as well as necessary support and coordination, including inviting honored guests and the media, organizing audiences and providing space. The exhibitors which intend to hold new products release conference or similar activities need to fill the Application Form of Enterprise On-site Activities (Attachment 12) and submit it to AWE Organizing Committee before January 20, 2019.

(II) Declaration of new products exhibition identification

The organizer has specially made a group of new products exhibition identification for the release and exhibition of new products on this exhibition only and will provide them to exhibitors freely on March 7, 2019, which aims to guide audiences to pay close attention to and acquaint new products and strengthen the promotion of new products. The exhibitors which intend to apply for new products exhibition identification can fill the Application Form of New Products Exhibition Identification (Attachment 11), the number of identification applied shall be subject to demands, and submit it to AWE Organizing Committee before January 20, 2019.

Five. Invitation to key clients of enterprises

(I) Invitation of the organizer on behalf of enterprises

The organizer will invite key clients on behalf of exhibitors. The exhibitors which are willing to entrust the organizer to invite clients need to fill the Registration Form of Invitation to Key Clients of Enterprises (Attachment 15) and submit it to AWE Organizing Committee by fax before January 20, 2019.

(II) Free invitation letter to audiences

The organizer will make and send VIP audience invitation letter, visiting card and ticket to the key clients invited independently by exhibitors for free of charge, so that core clients can use them during the exhibition and enter pavilions through VIP access. The exhibitors which is in demand need to fill the Registration Form of Invitation to Key Clients of Enterprises, the number of invitation letter, visiting card and ticket applied shall be subject to demands, and submit it to AWE Organizing Committee before January 20, 2019.

Six. Press publicity service

(I) Press liaison:

1. Press liaison of the organizer: the organizer will appoint a press liaison to take charge of publicizing and reporting before and during the exhibition and effectively contact with exhibitors about their publicity demands during the exhibition. As necessary, exhibitors can contact Mr. Thomas Wang, Tel: +8610-67093609, Fax: +8610-67156913, Email: thomas@cheaa.com

2. Press liaisons of exhibitors: to better use the exhibition platform to publicize and report, each exhibitor
needs to appoint a press liaison to take charge of the public relations and media matters during the exhibition and effectively contact with the press liaison of the organizer. Each exhibitor shall, before January 20, 2019, fill the Registration Form of Press Liaisons of Exhibitors (Attachment 16), print and sent it to +8610-67156913 by fax, and can also directly download the form in the download center at www.awe.com.cn, the official website of AWE and email to thomas@cheaa.com.

(II) News Center:

To better provide convenience for the media publicizing the exhibition, the organizer will set up the news center for media report, internal live video studio, field interviewing room and data frame.

The live video studio can be used for exclusive video interview of honored guests of exhibitors by live media, and the field interviewing room can be used as the place where honored guests of exhibitors accept the interview of multiple media of the News Center. The exhibitors which is in demand need to fill the Application Form of Interview Appointment of Exhibitors in the News Center (Attachment 17), print and sent it to +8610-67156913 by fax, and can also directly download the form in the download center at www.awe.com.cn, the official website of AWE and email to thomas@cheaa.com after filling it before January 20, 2019.
CHAPTER SIX. Q&A ABOUT EXHIBITION SERVICES

Parking of trucks during the building period
◆ Parking place: P3 and P7. Expenses of vehicle certificate and entering pavilions for unloading and procedures handling shall be subject to the Exhibitor Manual.
◆ Enterprises which will enter site for unloading or building up on March 11 shall complete the vehicle certificate at the accreditation center of south entrance hall.

About handling truck certificate
◆ The truck certificate handled shall be valid for 24 hours only. It can be used to enter site for unloading for only once within 24 hours. Beyond the limited time, a new vehicle certificate shall be obtained, excluding the queuing time. Enterprises shall read the detailed description at the site of certificate handling.

Work overtime
◆ In case of work overtime on March 11-13, enterprises shall handle procedures in the south entrance hall for current work overtime before 3:00 pm in the same day, and those overdue will be charged additionally.
◆ Application of work overtime beyond the contract period is applicable to public relations corporations or building corporations.
APPENDIX-01 APPLICATION FORM FOR EXHIBITOR BADGES
Deadline: Dec.31, 2018
You may also fill in the information on our website using your ID and password in the contract.

Exhibitor: ____________________________ Stand No: ____________________________.
Stand Area: □ Raw space ___ sq. m
□ Number of Standard Booth ___ (shell scheme A, 3mx3m)
□ Number of Standard Booth ___ (shell scheme B, 3mx4m)
Tel: ____________ Fax: ____________ Email: ____________ Contact Person: ____________.

Your information will be on the exhibitor badges. The badges will be the only identification used during move-in, exhibition and dismantlement. Persons without badges cannot enter the exhibition center. Please fill out the Appendix01 and send it back to us before the deadline.

Remark:
1. All orders should be paid in full in cash or by wire transfer.
2. Orders after 20th Jan 2019 will be charged a 50% surcharge.
3. All exhibitors need to order three-phase power supply.
4. All items are for rental purposes, non-convertible and refund orders. Cancelled orders will not be refunded.
5. According to exhibitor regulations, sockets at standard booths may only be used for computers, mobile phone charging and water machines. Exhibitors are not permitted to install additional lamps. You may consult your contractor for details.
6. Do not insert iron wire or nails in standard booths. Otherwise, there will be a charge for damaged boards and aluminum brackets. Don't hang items over 5kg on the booth walls. Otherwise, the exhibitors shall be responsible for the damage due to overweight suspension.
7. After exhibition, SYMA, Rong Joy or Oriental Expo will deduct telephone fees from the deposit and return the rest of the money to exhibitors within two weeks.
8. All exhibitors should mark location of items ordered and then fax or e-mail diagrams to SYMA, Rong Joy or Oriental Expo. If contractors do not receive any diagrams, they will install items according to their own judgment. Relocation of water, electricity, gas, telephone and internet cables onsite costs an additional 50% of the standard price. Relocation of lamps costs 20% of the standard price.
9. After contractors receive orders, they will bill payment to exhibitors as confirmation. Exhibitors shall issue the payment to contractor according to the schedule. Please contact your contractor if you haven't received payment notice 3 days after order submission. Orders without payment notice are invalid.
10. Exhibitors are strongly recommended to bring their own voltage regulator to protect sensitive appliances. If exhibitors have special requirement towards water temperature, water pressure, or air pressure, please bring your own related equipment.

SAFETY COMMITMENT OF THE ERECTION CONTRACTOR

We, the erection contractor (hereinafter referred to as “the Contractor”), are committed to strictly obeying the following rules during exhibition hall improvements, booth erection, and dismantling operations within the confines of the Shanghai New International Expo Centre Co., Ltd. (hereinafter referred to as the “SNIEC”), so as to ensure the common facilities within the SNIEC are well protected, the construction work is carried out in a safe manner, and the SNIEC is kept quiet, safe, and clean.

1. The Contractor shall strictly abide by the laws, rules and regulations on work safety, fire safety, and labor protection promulgated by the state and Shanghai municipal governments and relevant administrative departments.

2. The Contractor shall take charge to educate its on-site workers on work safety, ensuring that the workers carry all relevant work permits, and ensuring that all its workers work with their helmets on and, when working at heights above 2 meters, wear safety harnesses. The Contractor shall urge its transport staff to work according to all relevant safety regulations, and take protective measures to ensure work safety and fire safety according to regulations. The Contractor shall designate a person, who shall be readily recognizable at the site, to take charge of on-site day-to-day safety supervision.

3. The workers of the Contractor shall closely follow the rules on the operation and use of the facilities and equipment in and out of the exhibition hall, and facilitate the checking and supervision of the SNIEC’s staff on the improvement work.

4. During work execution, the Contractor shall strictly follow the SNIEC’s rules on work safety and fire safety; and shall bear all responsibilities and consequences in result of the failure the stipulated rules.

5. For work at height, the worker shall be a holder of a work-at-height permit or other relevant qualifications, and take all appropriate safety measures. Should there be any accident; the Contractor shall bear all responsibilities, liabilities and consequences.

6. During work execution, the Contractor shall keep the constructions, structures, facilities, equipment, and fittings in the exhibition hall clean and well protected. Should there be any damage or pollution; compensation shall be made according to the SNIEC’s “Damage Price List of Constructions and Structures” and “Damage Price List of Facilities, Equipment, and Fittings”.

7. Fire and explosion prevention rules shall be strictly observed. Smoking is prohibited in the exhibition hall. No explosives and inflammables (such as paint, banana oil, dimethyl benzene, etc.) may be taken into the exhibition hall. No fire, electric furnace and welding equipment may be used within the exhibition hall.

8. Materials must not be stored at the fire exits. All fire exits, safety passages, and common walkways must be kept free of any obstructions.

9. During work execution, no action shall be carried out that may affect the structures and safety of the building.

10. Workers must not undertake other transport tasks that are irrelevant to the designated exhibition, or solicit work from other concurring exhibitions.

11. The Contractor must not subcontract the work of exhibition booth erection or dismantling to individual persons, other private entities or entities that do not carry legal person status and relevant certifications.

12. The Contractor must not use the materials and facilities for improvement that have been expressly banned by national laws and regulations.

Should there be any consequences due to the Contractor’s failure to follow the aforementioned rules, the Contractor will be liable for punishment from the SNIEC, the sponsors of the exhibition, and the security staff of the exhibition hall, and bear all possible resulting economic and legal liabilities.

NOTICE ON STRENGTHENING THE MANAGEMENT OF TOOLS FOR ALOFT WORKING

To relevant departments:

In recent years, high altitude falling accidents occurred several times in our center, and most of them are ladder rollover accidents. To reduce the safety risks, the management of tools for aloft working will be strengthened in our center starting from today as follows:

1. Completely prohibit any ladder more than 2 m high used in the pavilion, unless movable scaffold which meet national safety standards.

2. The safety barrier must be equipped on the top of movable scaffold, and must reach 1.2 m high. For any staff with illegal operations, the work safety supervisor of our center will have the right to stop its construction and eliminate it out.

The management abovementioned will be put into practice from now on. Each department shall immediately notify relevant personnel and contractors to adjust corresponding construction schemes, so as to ensure the construction safety.

Shanghai New International Expo Center Co., Ltd.

June 26, 2015
SPECIAL TIPS

To exhibitors:

The following tips are made specially to reduce problems easily encountered in the on-site building construction according to the operation experience for many years:

All construction technologies and materials must meet fire safety requirements. For any unqualified person discovered, the on-site supervisor will have the right to require it stopping construction and rectifying.

(1) All timber structures must be processed with fire protection and coated with fireproof materials;

(2) Concealed electrical lines must be protected through tube for insulation and fire retarding;

(3) Eliminate the use of fiber elastic fabric;

(4) Enclosed structure (including any material) shall not be used in the pavilion. More than 50% of the building top or more than 80% of the door shall be opened in the ground floor.

(5) In case of second-layer building specially equipped, the top of the upper layer shall not be sealed; the lower layer must be opened (more than 80% of the door opened) and cannot be enclosed. The lower layer must be equipped with spraying facilities and warning devices.

The principal of any booth which requires to be 24 h powered must notify the organizer before March 1, 2019 since temporarily adding may cause expenses.

All lights and electric appliances for booths must be turned off after closing the pavilion every day. The organizer will have the right to conduct forced outage to any booth with electric appliances not turned off after closing the pavilion.
